## **DETAILED ACTION**

### ***Election/Restriction***

1. Applicant's election without traverse of group I in Paper No.9 is acknowledged.

### ***Drawings***

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: "90" mentioned in the description of figure 2 in page 13, line 20 is missing from the figure, figure 2. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### ***Specification***

3. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.
4. The following title is suggested: Method of wetting webs of paper or other hygroscopic material..

### ***Claim Rejections - 35 U.S.C. § 102***

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

5. Claims 1-11 and 34-37 are rejected under 35 U.S.C. 102(a) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Anderson, US Patent No. 6,207,020.

Art Unit: 1731

Anderson teaches a method of wetting a wet using nozzles having three different gas/liquid feeds, see figures 2-5. Anderson teaches that the liquid is atomized by the gas stream and that then is deposited onto the surface of a moving hygroscopic web, a paper web, see column 6, line 33 through column 8, line 39. Note the swirling turbulent flow regime and the fine mist of droplets, see column 8, lines 18-39, column 11, lines 22-45. It seems that Anderson teaches all the limitations of the claims or at least the minor modification(s) to obtain the claimed invention would have been obvious to one of ordinary skill in the art.

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure in the art of "Wetting webs."

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to José Fortuna, whose telephone number is (703)305-7498. The examiner can normally be reached on Monday-Friday from 9:30 A.M. to 5:30 P.M.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steven P. Griffin, can be reached on (703)308-1164. The fax number for this group is (703)305-7115.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703)308-0661.

When filing a FAX in group 1730, please indicate in the Header (upper right) "Official" for papers that are to be entered into the file, and "Unofficial" for draft documents and other communication with the PTO that are not for entry into the file of the application. This will expedite processing of your papers.
